

24-Year Tubes Built by Miller only

It has taken 24 years to develop the skill which built Miller Tubes. Miller has built super-grade rubber goods. Their fine rubber goods are known everywhere as the "Surgeon Grade". That's the sort of skill—the very rare skill—needed in building tubes. Miller Tubes are built of "Surgeon Grade" rubber sheets. They are built layer on layer—sheet on sheet—up to the proper ply. Then each tube is tested for hours under air pressure to prove it air-tight. Don't buy tubes by guess. There are tubes not half so good as Miller's. Try a Miller—red or gray—and watch it. Then let results decide your future tubes. No extra price.

Savers Are Winners

It Is Very Interesting

to observe enthusiastic savers. We watch them as they come regularly to the bank to make their deposits. There is on their faces the smile that is peculiar to winners.

Their glory is not alone in the amount they have saved; they know that it is not always easy to save and are proud to have succeeded.

And then there is the fascination of growth! Only those who have really saved know the pleasure of watching a savings account grow.

A growing savings account is something to be proud of!

Delightful Reception

The home of Mr. T. W. Moses was the scene of quite a delightful reception Saturday evening, May 29, given in honor of the seniors and faculty of Appomattox Agricultural High School. Miss Nettie Moses, one of the most popular members of the class of 1920, made quite a charming hostess. Miss McCall served at the punch.

After several hours of dancing and merrymaking, the guests were ushered into the dining room, where refreshments were served by Messrs. T. W. and C. T. Moses. J. J. Mann and Miss Gille. The color scheme was gold and purple—the colors—with here and there a touch of green.

A circle of twenty candles, representing the class of 1920, pictures brightly lit the room.

Henry B. Young

Saturday night, May 22, Henry B. Young passed away suddenly at his home near Pamplin. During his life he was in his usual health, but in the early evening he was taken suddenly ill. He remained speechless till about 11 o'clock. He was given attention of his family and the best medical skill, but he was unable to survive.

He was a member of the Presbyterian church and was very active in its work. His body was buried in the family burying ground at his old home, where a large number of relatives gathered to pay their last tribute to him. "Shall We Gather at the River" and "Nearer, My God, to Thee" were sung at the funeral.

He survived by his wife, Bettie Young, and four children—Misses Ruth, Mary, Marjorie Young and Mrs. Meadows of Pamplin; and a brother—Mrs. Moore, Miss Bettie Young, and Willie Young. R. Y.

Mrs. A. L. Cyrus

Ada L. Cyrus, wife of O. Cyrus, of Appomattox county, died Thursday morning last at her home and retreat, in Lynchburg, after a continued illness. She is survived by her husband, her parents, Mr. and Mrs. H. Trent, and several children and sisters.

Appomattox Agricultural High School Closing Exercises

The closing exercises of the High School took place here Tuesday night, June 1st, when principal Crawley delivered diplomas to 21 young ladies and men. The house, as usual, was overflowed and not half of the crowd could get in the building. The graduates were as follows: President—Edwin Adams, Halifax; Secretary—E. L. McDearmon, Clover Hill; Lucile O'Brien, Clover Hill; Frances Smith, Clover Hill; Betty Morris, Clover Hill; Nettie Moses, Southside; Mary Gills, Clover Hill; Cornelia Gills, Clover Hill; Elsie Atwood, Southside; Alice Carson, Stonewall; Bettie Fracker, Stonewall; Melville Pittenger, Clover Hill; Jimmie Conner, Halifax; Charlie Towler, Charlotte; William Moorefield, Halifax; Virginia Harvey, Campbell; Nannie Harvey, Campbell; Davis Street, Stonewall; Gladys Woolridge, Bedford; Hudson Anderson, Halifax; Rheda Drinkard, Clover Hill.

A special feature of the commencement was that it was a special alumni year, and a large number of the old students were present. Mr. Walter Durham, an Appomattox boy, delivered the address to the graduates, and it was considered a very fine address. Walter was of the 1912 class and since that time has been in higher institutions and has taught at the V. M. I. for several seasons. Mr. Jerry Burke, another alumnus, delivered the address in a very pleasing manner. The first honor medal, given by R. F. Burke, went to Miss Cornelia Gills; Improvement medal, given by T. W. Moses, went to Mat taur Carr; Agricultural first honor went to Berkeley Andrews, and a scholarship to Richmond College, valued at \$75.00, went to Miss Lucile O'Brien. A special orchestra from Lynchburg furnished the music. The class was in full uniform and presented a very striking appearance.

On Monday night the literary societies held their annual contest and gave a very interesting program. The program was as follows:

WASHINGTON
Oration—Berkeley Andrews.
Debaters—Stella Payne, Edwin Adams, negative.
Musical Selection—Sammie Ferguson.
Reading—Cally Babcock.

LEE
Oration—Nettie Moses.
Debaters—M. Carr, Lucile O'Brien, affirmative.
Musical Selection—Eloise Atwood.
Reading—Marguerite Chilton.

Subject—Resolved, That the League of Nations should be adopted by the United States.

There was much rivalry between the two societies and the contest close throughout. The judges, however, gave the victory to the Lee Society, but by only one point.

On Sunday morning Dr. J. L. Franklin, formerly an Appomattox boy but now of Boston, Mass., where he is secretary of the Northern Baptist Missionary Board, preached a very excellent sermon to the class.

On Tuesday morning a very interesting musical was held in the auditorium and the following program was rendered. The program was well rendered and drew a large attendance:

Throughout the week the town was filled with visitors and guests who came to attend the finals of the school. The boys and girls have now gone to their homes and the streets of our town seem rather lonely since it is now all over.

The session has been one of much success. Of the 125 or more pupils in the high school Principal Crawley reports only six failures in the school year. This is rather an unusual occurrence. The hope for a still better school next year is already anticipated; and while it will be difficult to hold good teachers, everything possible will be done to get good teachers, if possible.

Picturesque New Zealand.

New Zealand is a land of mountains, gorges, rivers and fjords. The higher peaks of the south island are eternally snow capped and the glaciers of its southern Alps rival those of Switzerland. The surrounding seas are too cold for corals. Among the mountains of the north island volcanic fires are still active and the geysers and hot springs are little less impressive than those of the Yellowstone park.

Revival of the Troubadour.

The troubadour is imagined as a long-haired creature with a big lute. But the real meaning of the word is one who "finds out" his own songs. In Provençal the word is spelled "troubador" or "troubador." It comes from the verb "troubare"—trouble—to find.

Every Inch of the Bates Steel Mule is Thoroughbred

The United States government by means of the Department of Agriculture, has been looking into the tractor question, and its bulletins clearly prove that the satisfied tractor owner—men who say that the tractor has paid—are men who own the BETTER CLASS of tractors. The successful man has learned years ago that he can't get something for nothing. No one can. The reason the BATES STEEL MULE costs more is that it is worth more. Skilled factory procedure, quantity production and the most modern Machinery enables us to save money at every turn, yet the BATES STEEL MULE cost slightly more in the beginning to build but considerably less in the long run to own. It's just another case where a seemingly higher priced article is far cheaper to own when you come to actually USE it.

The Bates' thoroughbred quality comes not from mere claims, but from what's put into it. Every part that goes to make up the BATES STEEL Mule is put there by long field experience. There isn't a part that isn't tried and tested. There isn't a part that experience hasn't dictated the shape and size of, and in it all there isn't one superfluous part, nor one part that isn't capable of standing up under twice the strain it gets in actual use. These are things experience and practice have dictated. The BATES comes to you as a fulfillment of your desire for a tractor that will endure. Price is what we pay for a thing. Value is what we get out of it. Consider your tractor from what you will get out of it, consider how many working days you have when the ground is wet, consider the operations where you can not afford to pack your seed bed, and consider how constantly and economically they must be performed even in rush times, you will then see why the BATES STEEL MULE is the biggest value offered in any tractor on the American market today.
